

# ALASKA IS MINING!

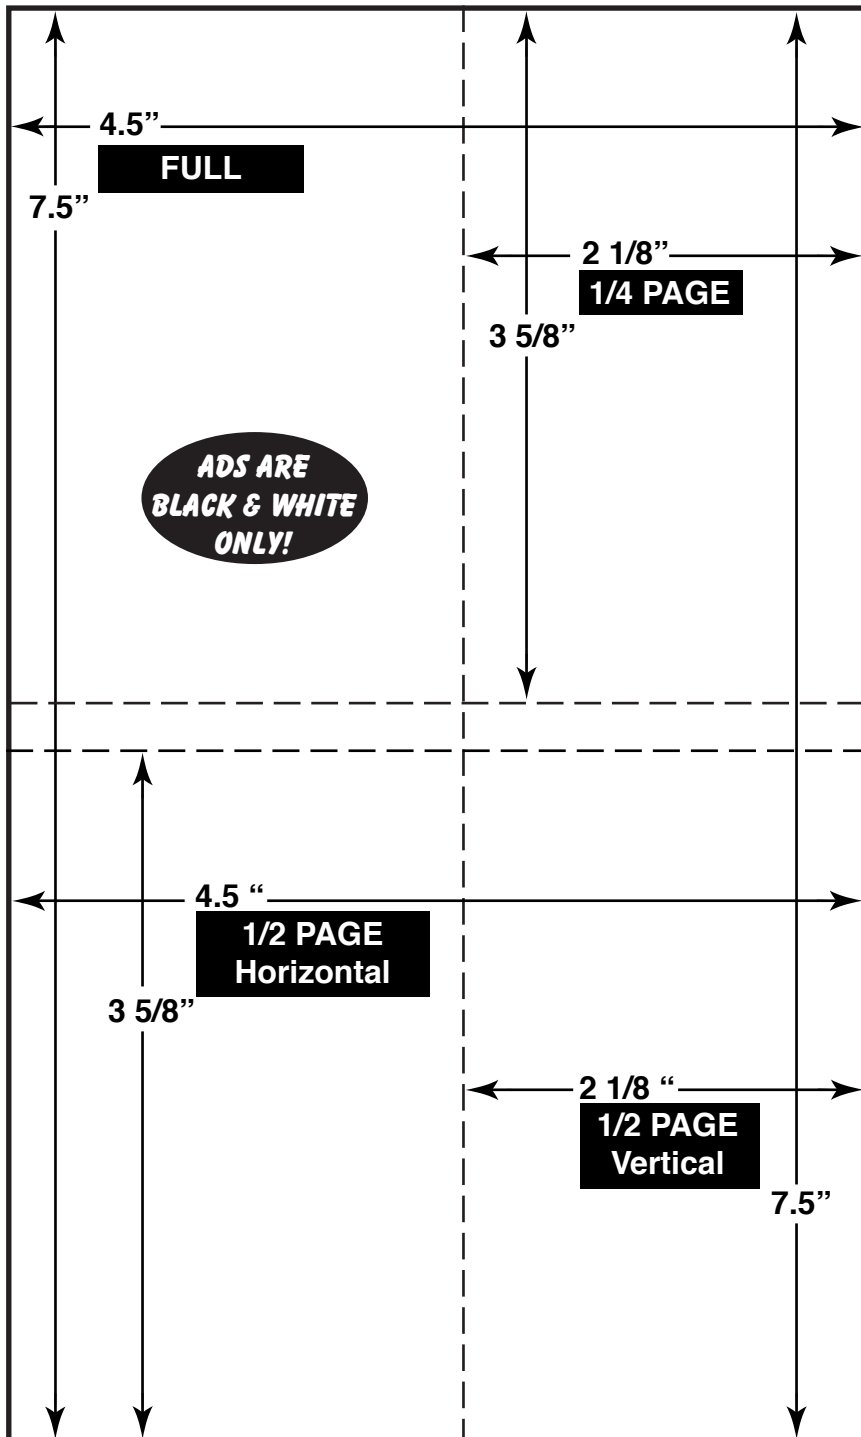

Alaska was built on mining and mining is still a significant part of Alaska's economy. The value of Alaska's mineral industry has been over \$3 Billion for 3 years in a row! Reserve your space in the AMA's 2010 Handbook & Service Directory today.

The **Alaska Miners Association** was founded over 65 years ago to promote the mining industry and protect it from unreasonable public policies. The AMA continues to aggressively pursue these goals by monitoring government policies and regulations, educating the general public about

the value of minerals produced by the mining industry, and promoting the use of improved mining practices. Your ad in our annual **Handbook & Service Directory** supports that effort and puts your company's name in front of the relevant people involved in mining in Alaska.

**Give your company exposure to the mining community in Alaska and support the AMA's efforts.**

## AD CONTRACT ON BACK!

### Ad Sizes and Rates:

Full Page.....	\$ 540
