

ENVIRONMENTAL ENGINEER

Usibelli Coal Mine, Inc. is hiring an environmental engineer for its Healy office.

Duties and Responsibilities:

- Participates in regulatory agency inspections and investigations to ensure compliance with federal and state regulations
- Conducts environmental effects assessments
- Works with mining production, permitting, laboratory, reclamation, and maintenance staff to ensure compliance and mitigate environmental hazards
- Frequent communications with regulators, mining personnel, and other stakeholders
- Prepares reports for compliance with permits and environmental regulations
- Oversees field supervision of non-mining-related projects
- Perform other duties as assigned

Experience, Skills & Qualifications:

- Bachelor's degree or the equivalent in environmental, mining, civil engineering, environmental science, or related field with five (5) years of experience
- Possess a valid Alaska Driver's License
- Above-average computer skills
- Must be able to work independently after task training by senior environmental staff
- Excellent written, verbal, presentation, and interpersonal skills required
- Must possess interpersonal skills with the ability to work in an industrial environment
- Must pass a post-offer physical and drug test

Salary & Benefits

This is a full-time, salaried position with competitive compensation commensurate with education and experience and competitive benefits package that includes vacation, retirement, and medical/dental/life insurance.

Apply on or before 5:00 p.m. on December 30, 2022.

Please send your application and resume to:
